WORK EXPERIENCE

XYZ Company

FRONTEND / WORDPRESS DEVELOPER

April 2023–Present

- Led the creation of dynamic and responsive websites using modern web technologies to enhance user experience and performance. I specialize in CMS development with platforms like WordPress, Shopify, and Frontend Operations, delivering customized, feature-rich websites for clients and internal projects. Worked closely with design teams to transform visual concepts into functional web interfaces, ensuring seamless design and functionality integration.

ABC Company

FRONTEND / WORDPRESS DEVELOPER

Jan 2022–Mar-2023

- As the Website Developer at SolutionInn, I oversee all frontend development operations for solutioninn.com and the Blog WordPress site.
- This includes new deployment, customization, issue resolution, bug fixing, and implementing new designs using cutting edge technologies. My responsibilities span ensuring the seamless functioning of both sites, optimizing user experience, and staying updated with the latest
- industry trends to implement innovative solutions effectively.
